

MR3
running for excellence

why **MP3** as supplier?

work ethic

Corporate social responsibility is our mission: **ETHICS AND WORK SAFETY** - in line with the **OHSAS 18001** standards - are the principles we follow

ready to invest

Our balance sheets highlight our strong **propensity towards investments** and our continuous **improvements in quality standards**

strong partnership with suppliers

The **major world suppliers** of polymers and industrial equipments **have been working with us for over 40 years**

new product development

We are working together with the **major world multinational companies** to develop new **thermoforming solutions**

using the best information technologies

Our NEW website www.ilpa-mp3.com has been redesigned to create a direct interface with our target customers. WE ARE ALSO AVAILABLE ON LINKEDIN AT <https://it.linkedin.com/company/mp3-s.r.l.>

management

Lean manufacturing organization since 2010 and SAP since 2018 help us being every day more excellent

experience

Over **40 years** in the reel and sheet sector

financial stability

A+ Rating: greatest **financial reliability** assessed by the major European Rating agencies

investing in recycling

- ✓ We are looking forward to an eco-sustainable future **investing in  , a factory dedicated to the recycling of the main polymers we use**
- ✓ We produce more than **35,000 tons of pet flakes**, in terms of co2 emissions it corresponds to about 75,000,000 kg of co2 eq. spared!
- ✓ We produce **rpel food grade** for direct contact with food, also thanks to the approval received from efsa (european food safety authority).
- ✓ We recycle around **50,000 tons of post-consumer pet bottles per year**, which corresponds to the quantity of pet bottles consumed and recovered in our region, emilia-romagna.

strategic position

- ✓ We are located in a strategic position **to quickly deliver our products** to the entire european and mediterranean territory and **only 150 km far from the main italian ports** for overseas traffic
- ✓ We are at the center of one of **the most important economic districts in Europe**: the best sport cars producers, the world's largest tile district, the packaging valley, the pharmaceutical district, the world's top food and agriculture are to be found within 50 km from our factory.

quality

PROGETTO ZERO

Established in 2017 by the factory workers, this project aims to eliminate the accidents at work through the diffuse involvement towards continuous improvement.

Quality team

- 1 quality manager
- 1 quality customer care manager
- 11 people dedicated to product quality assurances

Safety assurance

Company mission: the safety of the working environment is our priority. Created a new project: MP3 Total safety project with a team dedicated.

Continuous improvement

Lean manufacturing System operating since 2009 in all company's departments

Company

In the **45000** sqm facility located on an area of 80000 sqm, the company's production capacity currently exceeds **78000** ton/year. Over **72%** of the production is now exported. Stringent quality controls are made in every stage of the process, from incoming raw materials to the delivery to customers. In many cases, the materials for special applications are developed in conjunction with the customer itself to better meet the market requirements.

125 Millions of Euro invested in the last 15 years

78K Tons of Polymers capacity

223 Employees

72% Export

reels

technical data

Product range:

PET, PS, PP, PLA

A historical presence in the rigid film industry, with a consolidated range of products for the food and technical thermoforming sectors.

Final applications

Recycling integration

as source of corporate development

GREAT INVESTMENTS IN THE PLASTIC RECYCLING SECTOR

AMP Recycling Srl is a company 100% owned by I.L.P.A. SpA. AMP is specialized in the production of recycled PET obtained from the processing of PET bottles resulting from post-consumer collection. Thanks to the recycling of 50,000 tons of bottles PET, it helps not enter the atmosphere with CO2 emissions equal to a year of enlightenment of a city of 380,000 inhabitants. In 2017 additional investments in technology for the recycling of PET bottles are in prospect, which will bring the production capacity over the **35,000 tons of flakes**.

www.ilpa-amp.it

STARLINGER

Since 2016 a Starlinger decontamination system is operative at the plant AMP recycling srl, which enables us to achieve the Flakes food grade. On 8th April 2014 an application for authorization to EFSA was presented and it was issued a positive opinion in the form of Scientific Opinion of EFSA DOI 10.2903/JEFSA.2014.3633.

NEW INVESTMENT IN RECYCLING

EFSA GIVE OK
for food grade

PET

HACCP

Available as Virgin, ABA (Virgin/Regrind/ Virgin) and Regrind material and in different colours.

GAG-PET = co-extrusion of PETG and A-PET: PETG/ APET / PETG

PET REELS

Thickness: from 0.18 to 1.00 mm

Foil width: from 250 to 1300 mm

Core diameter: 76, 152 and 200 mm

Product name	Main applications	Product applications available on request
A-PET100	YOGURT POTS, FOOD CONTAINERS, PHARMACEUTICAL PACKAGING, BLISTER	
A-PET PAK	BLISTER, FOOD PACKAGING, PACKAGING	<ul style="list-style-type: none"> • SILICONE BATH ON ONE OR TWO SIDES OF THE SHEET • ADDITIVE GLIDING • ANTI-STATIC • ANTIFOG ON ONE OR TWO SIDES OF THE SHEET
A-PET 10**	FOOD CONTAINERS	
A-PET 1000	BLISTER, NOT FOR FOOD PACKAGING	
GAG-PET	BLISTER, PACKAGING	

** According to EC Regulation 282 -2008 Regulation [EC] No 282/2008. The APET 10 could be also produced with our Food grade Flakes : Positive Opinion in the form of Scientific Opinion of EFSA regarding the flakes produce by our Group recycling plant AMP; DOI 10.2903/J EFSA 2014 3633

PS

HACCP

Virgin materials, available in a range of colours and surfaces.

PS REELS

Thickness: from 0.3 to 1.5 mm

Foil width: from 250 to 1300 mm

Core diameter: 200 mm

Material: PS, PS/PE, PS/EVOH/PE

Surface finishing: Glossy or matt.

Product name	Main applications	Product applications available on request
MP STIR PLUS	YOGURT POTS, ICE-CREAM CONTAINERS, FOOD PACKAGING, PHARMACEUTICAL PACKAGING, BOX INSERT	<ul style="list-style-type: none"> • ANTISTATIC • SILICONE BATH ON ONE OR TWO SIDES OF THE SHEET • FOAM: ONE AND TWO COLORS
MP STIR HB / LB P/S (PS laminated PE or EVOH/PE)	FOOD PACKAGING	

PP

HACCP

Virgin Materials, available clear and white.

PP REELS

Thickness: from 0.15 to 0.90 mm

Foil width: from 400 to 950 mm

Core diameter: 76 mm

Colours available: Clear, White, Black, colours

Product name	Main applications	Product applications available on request
MP PROP	FOOD PACKAGING, DAIRY PACKAGING, PACKAGING, TECHNICAL ARTICLES	

PLA

HACCP

Virgin Materials, available in a range of colours.

PLA REELS

Thickness: from 0.20 to 0.90 mm

Foil width: from 350 to 950 mm

Core diameter: 76 mm

Colours available: Clear, White

Product name	Main applications	Product applications available on request
MP BIO (Biodegradable material)	YOGURT POTS, FOOD CONTAINERS, PACKAGING	

sheets

technical data

Product range:

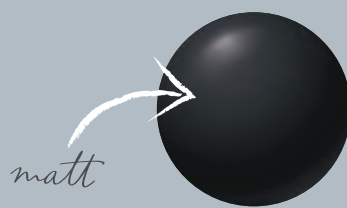

PS, ABS, ABS/PMMA, PMMA, PET

Our range of extrusion lines has been optimised over time (**more than 30 years in the industry**) to meet the demands of the major PS, ABS, ABS/PMMA, PMMA and PET, **sheets thermoforming** markets. The quality philosophy developed with **the main players in the food sector** is also applied to the **industrial market**, leading to the **highest finish and quality**. Every year we invest in **new technologies** and in the **upgrade** of the existing lines.

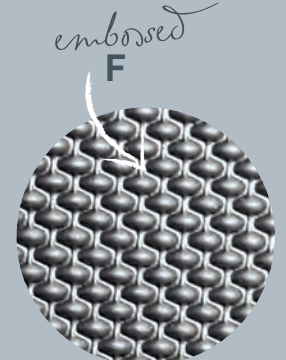

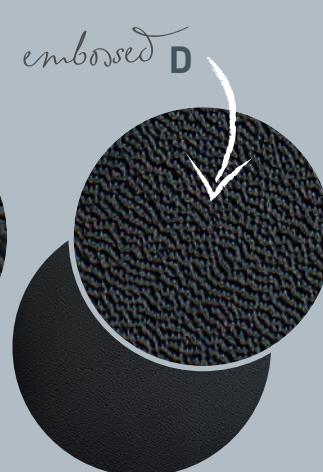

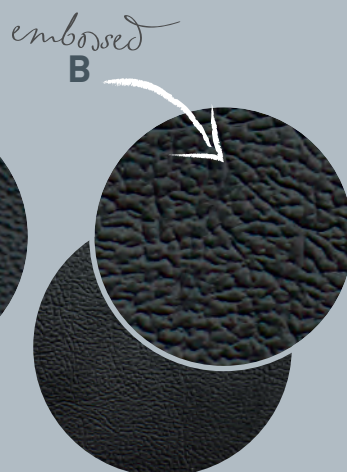

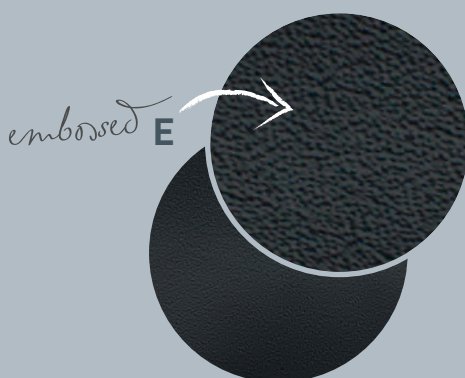

Product and final applications

Finishing:

Finishing embossed:

A NEW EMBOSSED FINISHING to widen the aesthetical range of our sheets.

PS

Available in a range of virgin & regrind grades, colours and surface finishing

Product name	Main applications
MP STIR LST / PLUS	BATHROOM FITTINGS, TOYS, DISPLAYS, TECHNICAL ARTICLES
MP FR 85 (cyclopentane resistant)	FRIDGES
MPK (blend PS / PE)	AUTOMOTIVE INTERIOR PARTS, FRIDGES

ABS

Available in a range of monolayer and co-extruded grades in a wide range of colours, finishing and embossed patterns

Product name	Main applications
ABS: LAC 500/700	AUTOMOTIVE INTERIOR PARTS, CARAVAN, FURNITURE, TECHNICAL ARTICLES, TRAYS FOR AUTOMATIC HANDLING SYSTEM
ABA/ASA: 500/700 UVL <small>A SPECIAL GRADE WITH GOOD PERFORMANCES OF MECHANICAL AND UV-RAY RESISTANCE</small>	BUILDING SECTOR, AUTOMOTIVE, TECHNICAL ARTICLES

ABS/PMMA

Available in a range of monolayer and co-extruded grades in a wide range of colours, finishing and embossed patterns

Product name	Main applications
ABS + PMMA: ACRYLAC 500/600/700	AUTOMOTIVE INTERIOR AND EXTERNAL PARTS, CARAVAN, ROOF BOXES, SANITARY
ABS + PMMA: ACRYLAC 700 ANTISCRATCH	TECHNICAL APPLICATIONS

MAIN FEATURES

Materials: PS - ABS - ABS/ASA - PMMA/ABS - PMMA - PS/PE (KOBLEND) - Cyclopentane resistant PS.

Surface finishing: smooth surface, with glossy or matt surface

4 types of embossed pattern - leather and small grains

Thickness range: production from 0.7 to 9 mm, mainly ranges from 2.2 to 8 mm.

Standard width range: from 400 mm to 2400 mm.

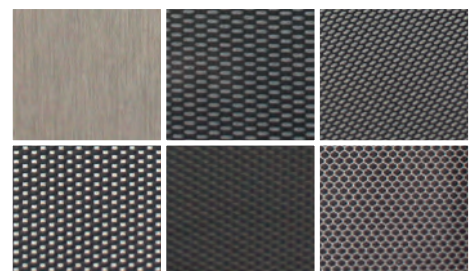

SHEET

special project

ABS or PS with a decorative printed film

Characteristic: wide range of application/markets with a decorative design (brushed, aluminum and other effects)

Main market use: automotive, caravan, roof boxes, yachting, building, merchandising and fitness equipment.

sheets VISTA ^{new}

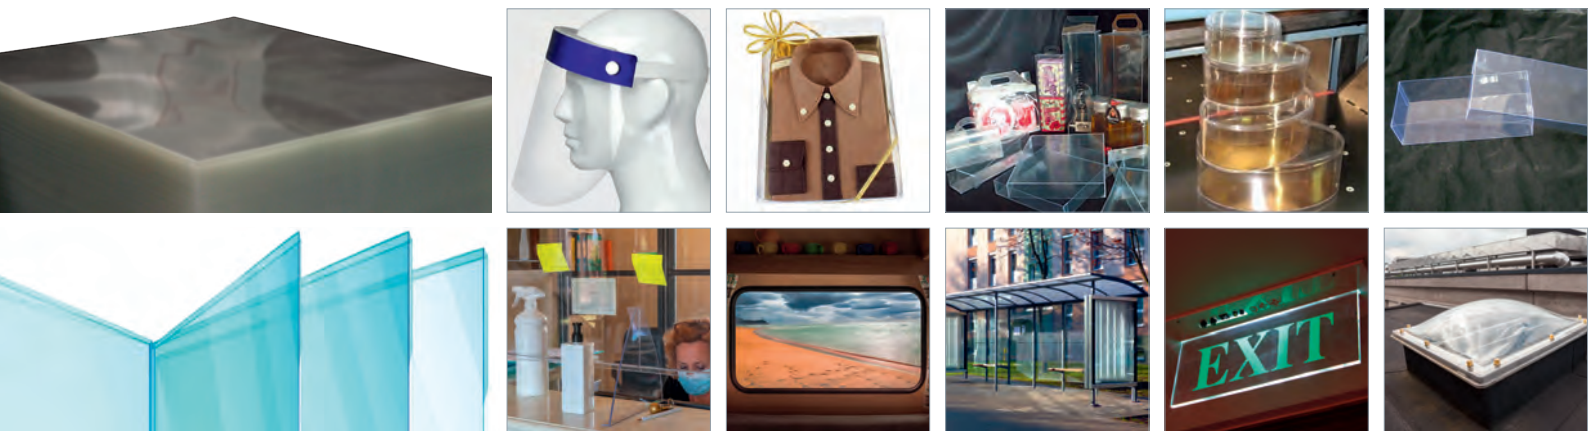

Mp3 presents
the new transparent sheets range VISTA.

These sheets are produced with different raw material types:

VISTAPET = sheets in PET

VISTACRYL = sheets in PMMA

Product and final applications

VISTACRYL

MP3 presents
The new range of **TRANSPARENT EXTRUDED SHEETS** in PMMA.

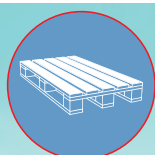

High aesthetics and optics quality thanks to an experience of more than 40 years in the extrusion sector. Innovative and latest generation extrusion lines allow the production of aesthetically perfect sheets, in dimensions and squares thanks to innovative cutting systems during the extrusion process.

Great care in packaging for safe transport anywhere in the world and with any means. Use of the best virgin raw materials. Transparent and anonymous protective film on both sides ideal for any production cutting process. Excellent processability with all cutting equipment used for the processing of PMMA sheets.

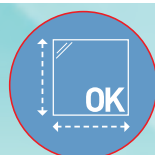

Thickness

The range in stock includes the main dimensions required by the market, thicknesses ranging from 2 mm to 6 mm. Custom sizes available on request.

Resistant packaging

A packaging studied in years of service to worldwide customers.

A perfect square

Perfect square of the sheets.

Protection film

Two transparent and anonymous protection films without writing designed to avoid any problem in sheet processing.

VISTA PET

POLYETHYLENE TEREPHTHALATE SHEETS

PET SHEET

AVAILABLE IN ALL THE PET GRADES DIMENSIONS:

the minimum and maximum dimensions of the sheets will be 400 to 1200 mm width and 300 to 1200 mm length with thickness range from 0.20 to 0.60 mm.

Product name	Main applications
VISTA PET VIRGIN MATERIAL	FOOD AND TECHNICAL PACKAGING
VISTA PETG GAG (GPet / Amorphous Pet / GPet)	TECHNICAL ARTICLES, PRINTED PACKAGING, BOX PACKAGING, ADVERTISING, LUXURY GOODS PACKAGING

VISTA CRYL

POLYMETHYLMETHACRYLATE SHEETS

Product name	Main applications
VISTA CRYL[®] MX STANDARD PMMA	IDEAL FOR FLAT PROCESSES. PROTECTIVE SCREEN ANTI COVID-19, ADVERTISING DISPLAYS, ILLUMINATED SIGNS
VISTA CRYL[®] PX HIGH IMPACT PMMA	IDEAL FOR FLAT AND THERMOFORMING PROCESSES. SPECIAL PROTECTIVE SCREEN ANTI COVID-19, ADVERTISING DISPLAYS, ILLUMINATED SIGNS, AUTOMOTIVE PARTS, CANTILEVER ROOFS
