MISSION | VISION

Our mission is **to provide our American clients the highest quality of plastic products in the thermoforming sector. Customers all over the globe have been satisfied by our innovation, our technology** as well as our variation with products.

In fact, MP3 has become known internationally due to focusing on different industries, such as automotive, industrial packaging, and food packaging. Moreover, since 1998, over \$100,000,000 was invested to **continuously improve quality while increasing production capacity.**

COMPANY

MP3 USA Inc. is the American branch of **MP3 Srl**, an **ILPA Group** company, the Italian leader in the plastic sector.

MP3 was founded in 1978 and since its establishment, the company has specialized in the supply of plastic semi-finished products for thermoforming (PS, PP, PET, ABS and ACRYLIC CAPPED ABS).

In 1991, the ILPA Group incorporated MP3 as one of its divisions, expanding production and giving it an international presence. Then, in the 2000s, the company invested more in quality and obtained national and international certifications, such as **ISO 9001-2015** and **BRC PACKAGING**, which are renewed every year with increasingly better results.

The current production plant, near Bologna, Italy, was inaugurated in 1998 covering about 860,000 square feet with the most modern equipment. Production capacity is **78,000 M.Tonne /year**, which 72% are exports. A considerable amount of space within the facility is dedicated to raw material storage, which allows **MP3** to be extremely competitive even with the most demanding logistic and production needs of its customers.

VALUE PROPOSITIONS

Quality of material and organization

We take pride in providing our clients with top-quality products meeting the highest standards and every customized request.

Service excellence

MP3s product range and services are fully certified and meet the most rigorous international standards in the plastic sector.

On-time delivery

Our quick manufacturing process and ability to manage raw material supply enables us to deliver products on schedule.

WHY

AS SUPPLIER?

Work ethic

Corporate social responsibility is our mission: **ETHICS AND WORK SAFETY** - in line with the **ISO 45001** standards - are the principles we follow.

Ready to invest

Our balance sheets highlight our strong **propensity towards investments** and our continuous **improvements in quality standards**.

Financial stability

A+ Rating: greatest **financial reliability** assessed by the major European Rating agencies.

Strong partnership with suppliers & customers

The **major world suppliers** of polymers and industrial equipments have been working with us for **over 40 years**.

Manufacturing efficiency

Operating **lean manufacturing** principles since 2010.

New product development

We are working together with the **major world multinational companies** towards innovation to develop new **thermoforming solutions**.

MP3 PRODUCT

RIGID THERMOPLASTIC CUT SHEET

PS, ABS, ACRYLIC CAPPED ABS

Our range of multi-layer extrusion lines allow us to produce premium quality thermoplastic cut sheets. The continuous improvement philosophy is applied to every manufacturing process, leading to the highest finishing and mechanical characteristics. Every year we invest in **new technologies** and in the **upgrade** of the existing lines.

PRODUCT RANGE

PS

Available in a range of virgin & industrial grades, colors and surface finishing.

Product name	Description	Main applications
MP STIR	High impact	BATHROOM FITTINGS, TOYS, DISPLAYS, TECHNICAL ARTICLES
MP STIR FR 85	Cyclopentane resistant	FRIDGES
MP SEC	Industrial grade	CONTAINERS

ABS

Available in a range of monolayer and co-extruded grades in a wide range of colors, embossed patterns and in natural or matt finish.

Product name	Description	Main applications
LAC 500	Medium impact	AUTOMOTIVE INTERIOR PARTS, CARAVAN, FURNITURE, TECHNICAL ARTICLES, TRAYS FOR AUTOMATIC HANDLING SYSTEM
LAC 700	High impact	AUTOMOTIVE & EARTH MOVING VEHICLES INTERNAL PARTS
LAC SEC	Industrial grade	CONTAINERS

ACRYLIC CAPPED ABS

Available in co-extruded grades and in a wide range of colors, embossed patterns, glossy or matt.

Product name	Description	Main applications
ACRYLAC PX 500	Medium impact, UV resistant	SANITARY, MEDICAL, TECHNICAL ARTICLES
ACRYLAC QX 700	High impact, UV resistant	RECREATIONAL VEHICLES, EXTERNAL PARTS, ROOF BOXES
ACRYLAC TX 700	High impact, ESCR rated, sanitary grade	BATHTUBS, SPAS, SWIMMINGPOOLS
ACRYLAC ETM	ESCR rated, supermatt	SANITARY, AUTOMOTIVE

DIMENSIONS

Thickness range: production from from 0.059" up to 0.36".

Standard width range: from 15,75" to 94,5' (max length 177,16").
